

## Bonnie Cleary

I have two large dogs. One is an Old English Bulldog at 80 pounds (Duncan) and the other is a Cane Corso, Presa Canario mix (Sophie). Sophie is just 7 months old, but weighs about 85 pounds. Walking both dogs at the same time became quite a challenge for me. Sophie will be about 120 pounds within a short time. I knew I really needed help in order to be able to control her and that she needed much more than the basic puppy class. I saw Jeff's card at my vet's office, called him, and with his help I can now walk both dogs at the same time. They no longer pull me down the street, I am in control. Sophie has learned to sit, stay, heel, and we are working on her jumping issues, we well as her fears and timidness. Jeff does not just teach your

dogs, he teaches you how to be the pack leader. He has made my home an easier place for humans and pets to coexist. I have had a lot of dogs over the years, and have been to several classes with each of them, but I have to say Jeff's methods have certainly been the best. I highly recommend Jeff and his teaching. Feel free to contact me, for more information on Jeff.
