

Chris & Susanna

After we adopted our dog Pancho we were incredibly excited dog owners! We had also adopted a two year old terrier with no training whatsoever. After some work on our own we decided to enlist the help of Jeff. After the first training session it became clear that Jeff is a truly gifted individual. His philosophy is exactly what our dog needed to lead a structured and happy life. We quickly became amazed at the intelligence level our dog possess and learned how to appropriately stimulate our dog mentally and physically. Jeff is also extremely knowledgeable and helpful always making himself available when an issue comes up and being there to help us as well as Pancho. Thanks to Jeff we are now confident dog owners. From open fields to busy

city streets Pancho is very solid on all of his commands and everyone we know is always amazed by his level of obedience and attentiveness. We have continued our work with Jeff and have started off leash training which has recently gone extremely well. Pancho is looking forward to learning more from Jeff in the future and so are we!!!
