

Why we love Jeff Gellman & Solid K9 Training

We relocated to Providence the summer of 2007 with our husky, Storm. We had never had any formal training with her in Upstate NY and until we lived in a city environment, we didn't realize how much we really needed some training and control of our energetic dog. After adopting a second husky in February of 2008, we knew we needed to get our "pack" under control. We saw Jeff's Solid K9 Training Volkswagen (since retired) in the neighborhood several times and decided to give him a call to see if he could help!

Jeff visited us in our home and we immediately noticed he had a NO NONSENSE approach to training. His first recommendation was a prong collar for our huskies and we started working on the proper walking in "heel" position. Our two dogs definitely tested us the first time with their collars on...crying and refusing to walk; but, with a few quick corrections from Jeff, he had them under control and walking right by his side! It was a miracle how quickly they responded to this type of training! We were doing everything wrong before we met Jeff. Following a few in-home training sessions, our dogs were under control and our walks became much more controlled and fun!

We continued to work on socialization and other basic training skills with Jeff and during the summer of 2008 we decided on a 2 week board and train for our dogs at Jeff's kennel. Our dogs responded excellently to Jeff's staff and his kennel. It is clean, comfortable and the dogs work hard and play hard too! We travel a lot and having our dogs trained on the e-collar was important so that we could take them off leash wherever our travels took us. After two weeks, our dogs were like new dogs! It is amazing how much happier dogs are when they can run free and be dogs!! Now we are able to take them anywhere and have great off leash fun! Since our board and train we have been skiing in Vermont, hiking in NH, to lakes in Upstate NY and on Christmas trips to FL to name just a few places.

We are so grateful to Jeff and his entire Solid K9 Training Staff. We would highly recommend him to anyone with any type of dog with any type of training need!!
