

Talbot Testimonial

It's hard to believe that just 3 months ago, my two little dogs ran the household and our life. My husband Mike and I love dogs and we also own a feline that's 10 years old now. All of the animals have always gotten along great. But our house wasn't a peaceful sanctuary by any means. People would walk by with their own dogs and set my dogs off in hysteria and all I could hear was barking. I wasn't even able to hear my own voice above theirs. It was all day and all night. Holidays like Halloween were a total nightmare with the doorbell ringing every 5 minutes. Sure we loved our dogs but they took charge of the house at all times. Jeff is the one who showed us (especially me) that I was allowing this to occur. Both dogs were newspaper trained but there were many mistakes in the house and floor washing was a daily chore for me.

Kozzie (my Maltese) who is a male was a pro at marking his territory and Angel (Yorkshire terrier) who is my female would poop and then hide behind the couch in shame. We knew we had issues to deal with but simply chose to ignore their behavior. I knew something wasn't right when I met Jeff for the first time and he asked "You allow this barking, it's annoying!" Annoying I thought? Not my sweet

little babies. After much work and patience with both of them, I now realize what he was saying. In fact, I am embarrassed that I even let it go on for years. I am so very proud of how far they have both come with the help of Jeff and his dogs. I will forever be grateful to him for his guidance and words of encouragement. He loves what he does and he truly is a Godsend to our family. Now there is peace in our home and visitors who come by are astonished at how much they have changed for the better. Kozzie is 5 years old and Angel is 3 years old. It's never too old to teach an old dog new tricks.....they say. My husband and I are now pack leaders in our home. We learned a lot from Jeff as well as gained a wonderful friendship. Small dogs, medium dogs or large dogs, whatever the size, they need discipline, exercise and affection. Thank you Jeff for all you have done for our family.
