Convenience: Hiring an at home trainer that works 7 days a week around your schedule is not only convenient, the one-on-one training produces results. I offer one of the most unique dog & human training services in the country. I am able to apply the training to your day-to-day life and teach you to be pro-active with your dog. You will also learn the proper communication skills that you need to correct bad behavior.

I am also one of the few people nationally that will work with highly aggressive dogs, there is no behavior that your dog has that will keep me away from you and your dog.

Are you ready for change?: I do not need to do an assessment of your dog to know if I can train it, I can train your dog no problem! Often it is the human part of the training that is the largest hurdle to overcome. Are you ready for change? Are you ready to stop the bad habits that are possibly reinforcing your dog's bad behavior.

I believe in a holistic based program of dog training and therefore I don't have a band aid approach to you and your dog. I am a result oriented trainer and you will see dramatic results after the first time we meet.

Dog Training Package:

My rates are based on training packages, with a 7 hour minimum. This time allows me to apply my holistic dog training approach, and change the way you and your dog interact forever. Package rates for RI and Southeastern MA are between **\$900.00-\$1400.00** depending on the distance from Providence.

What do you get for your investment: You get a dog that will listen to you and your family, understand his/her role in the pack and can relax in any situation no matter the surroundings. My goal is to have your dog be off leashed trained and listen to you in any situation.

I not only teach your dog the basic lifestyle commands, not just a series of tricks, allowing you to become one with your dog and unleash your dogs true spirit.

- **Heeling**-walking next to you at your side and automatically sit when you stop
- **Sit/Stay**- In my world when I tell a dog to Sit, Stay is built in, no need to say Stay
- **Down/Stay**-In my world when I tell a dog to Down, Stay is built in, no need to say Stay
- **Place**-your dog will go to a mat or rug and not get off
- **Waiting**-your dog should automatically wait at all thresholds including car doors
- **Recall**-the come command is a lifesaver and I need your dog to come when called
- **Treadmill**-if you have a treadmill, i will teach your dog how to walk on the treadmill
- **Swimming**-wether you have a swimming pool or we go to the ocean, I will teach your dog how to swim.

Along with the above lifestyle commands I will help you eliminate common problem behaviors such as:

- **Leash reactivity** (*going crazy on a leash when walking by dogs, bikes, busses etc.*)
- **Jumping on people, furniture and counters**
- **Excessive barking**
- **Housebreaking issues**
- **Chewing and destruction**
- **Separation anxiety**

Off leash Remote Collar Training:
